

§ 1437.12

7 CFR Ch. XIV (1–1–04 Edition)

planted or planted but not harvested, as determined by CCC.

(d) An adjusted market price will be calculated based on the provisions in this section and others as may apply. A final payment price will be determined by multiplying, as appropriate, the average market price by the applicable payment factor (i.e. harvested, unharvested, or prevented planting) by 55 percent or, by multiplying the applicable AUD (as adjusted, if adjusted) by 55 percent.

§ 1437.12 Crop definition.

(a) For the purpose of providing benefits under this part, CCC will, at its discretion, define crops as specified in this section.

(b) CCC may separate or combine types and varieties as a crop when specific credible information as determined by CCC is provided showing the crop of a specific type or variety has a significantly different or similar value when compared to other types or varieties, as determined by CCC.

(c) CCC may recognize two or more different crops planted on the same acreage intended for harvest during the same crop year as two or more separate crops. The crop acreage may include a crop intended for harvest before planting of a succeeding crop or a succeeding crop interseeded with the preceding crop prior to intended harvest of the preceding crop. The acreage must be in an area where the practice is recognized as a good farming practice, as determined by CCC, and all crops are recognized by CCC as able to achieve the expected yield, as determined by CCC.

(d) CCC may consider crop acreage that is harvested more than once during the same crop year from the same plant as a single crop. The acreage must be in an area where the practice is recognized as a good farming practice, as determined by CCC.

(e) CCC may consider each planting period of multiple planted acreage as a separate crop. The acreage must be in an area where the practice is recognized as a good farming practice, as determined by CCC.

(f) CCC may define forage as separate crops according to the intended method

of harvest, either mechanical harvest or grazed.

(g) Forage acreage intended to be grazed may be further defined as warm and cool season forage crops.

(h) Forage acreage intended to be mechanically harvested may be defined as a separate crop from grazed forage and may be separated based upon the commodity used as forage, to the extent such separation is allowed under paragraph (b) of this section.

(i) Crop acreage intended for the production of seed may be considered a separate crop from other intended uses, as determined by CCC, if all the following criteria apply:

(1) The specific crop acreage is seeded, or intended to be seeded, with an intent of producing commercial seed as its primary intended use;

(2) There is no possibility of other commercial uses of production from the same crop without regard to market conditions; and

(3) The growing period of the specific crop acreage is uniquely conducive to the production of commercial seed and not conducive to the production of any other intended use of the crop, (e.g. vernalization in a biennial crop such as carrots and onions) and that accommodation renders the possibility of production for any other intended use of the crop improbable.

§ 1437.13 Multiple benefits.

(a) If a producer is eligible to receive payments under this part and benefits under any other program administered by the Secretary for the same crop loss, the producer must choose whether to receive the other program benefits or payments under this part, but shall not be eligible for both. The limitation on multiple benefits prohibits a producer from being compensated more than once for the same loss.

(b) The limitation on multiple benefits in paragraph (a) of this section shall not apply in any respect to Emergency Loans under subtitle C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961 *et seq.*).

(c) The restriction on multiple benefits does not relieve the producer from the requirements of making a production and acreage report.

Commodity Credit Corporation, USDA

§ 1437.15

(d) If the other USDA program benefits are not available until after an application for benefits has been filed under this part, the producer may, to avoid this restriction on such other benefits, refund the total amount of the payment to the administrative FSA office from which the payment was received.

§ 1437.14 Payment and income limitations.

(a) NAP payments shall not be made in excess of \$100,000 per person per crop year under this part.

(b) NAP payments shall not be made to a person who has qualifying gross revenues in excess of \$2 million for the most recent tax year preceding the year for which assistance is requested. Qualifying gross revenue means:

(1) With respect to a person who receives more than 50 percent of such person's gross income from farming, ranching, and forestry operations, the annual gross income for the taxable year from such operations; and

(2) With respect to a person who receives 50 percent or less of such person's gross income from farming, ranching, and forestry operations, the person's total gross income for the taxable year from all sources.

(c) CCC will pay, for up to one year, simple interest on payments to producers which are delayed. Interest will be paid on the net amount ultimately found to be due, and will begin accruing on the 31st day after the date the producer signs, dates, and submits a properly completed application for payment on the designated form, or the 31st day after a disputed application is adjudicated. Interest will be paid unless the reason for failure to timely pay is due to the producer's failure to provide information or other material necessary for the computation of payment, or there was a genuine dispute concerning eligibility for payment.

(d) Rules set out in 7 CFR part 1400 shall apply in implementing the restrictions of this section.

§ 1437.15 Miscellaneous provisions.

(a) To be eligible for benefits under this part, producers must be in compliance with the highly erodible land and

wetlands provisions of part 12 of this title.

(b) The provisions of § 718.11 of this title, providing for ineligibility for benefits for offenses involving controlled substances, shall apply.

(c) A person shall be ineligible to receive assistance under this part for the crop year plus two subsequent crop years if it is determined by the State or county committee or an official of FSA that such person has:

(1) Adopted any scheme or other device that tends to defeat the purpose of a program operated under this part;

(2) Made any fraudulent representation with respect to such program; or

(3) Misrepresented any fact affecting a program determination.

(d) All amounts paid by CCC to any such producer, applicable to the crop year in which a violation of this part occurs, must be refunded to CCC together with interest and other amounts as determined appropriate to the circumstances by CCC.

(e) All persons with a financial interest in the operation receiving benefits under this part shall be jointly and severally liable for any refund, including related charges, which is determined to be due CCC for any reason under this part.

(f) In the event that any request for assistance or payments under this part was established as result of erroneous information or a miscalculation, the assistance or payment shall be recalculated and any excess refunded with applicable interest.

(g) The liability of any person for any penalty under this part or for any refund to CCC or related charge arising in connection therewith shall be in addition to any other liability of such person under any civil or criminal fraud statute or any other provision of law including, but not limited to: 18 U.S.C. 286, 287, 371, 641, 651, 1001 and 1014; 15 U.S.C. 714m; and 31 U.S.C. 3729.

(h) The appeal regulations at parts 11 and 780 of this title apply to decisions made according to this part.

(i) Any payment or portion thereof to any person shall be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or proceeds thereof.
